WORK EXPERIENCE

Software Development Intern — ZenV Quantum Pvt. Ltd., Hyderabad Current

- Contributed to the CertShield project — a Python FastAPI microservice for cryptographic certificate verification using ECDSA P-256 signing and QR code generation.
- Gained hands-on industry experience in backend development, REST API design, and secure data handling workflows.

Java Virtual Internship — Internship Studio Completed

- Completed a structured, project-based Java internship focused on core OOP concepts, design patterns, and practical application development.

PROJECTS

CertShield — Certificate Verification Module Python | FastAPI | ECDSA P-256 | QR Code

- Developed to address credential fraud in universities and training institutions where digital certificates can be easily duplicated or altered.
- Built a FastAPI microservice that accepts certificate data via REST API, cryptographically signs it using ECDSA P-256, and generates a verifiable QR code for instant authentication.

AI-Based Resume / CV Builder Python | BERT | NLP | Deep Learning

- Leveraged NLP and BERT deep learning to parse, extract, and classify candidate information into structured formats with semantic understanding beyond keyword matching.
- Categorized resumes into technical and non-technical roles, reducing manual screening effort and supporting scalable, faster hiring decisions.
